

87. (Previously Presented) The mop of claim 85, further comprising a sleeve positioned over the hollow valve body.

88. (Previously Presented) The mop of claim 83, further comprising a barbed fitting in communication with the valve assembly.

89. (Previously Presented) The mop of claim 81, further comprising a flexible tube in communication with the one or more openings.

90. (Previously Presented) The mop of claim 83, further comprising an actuator for opening the valve assembly and releasing the fluid through the one or more openings.

91. (Previously Presented) The mop of claim 81 further comprising an actuator for causing the mop head to compress a portion of the cleaning member.

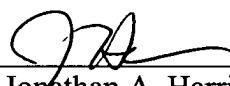

92. (Previously Presented) The mop of claim 81, wherein the handle comprises a substantially uniform cross-section.

REMARKS

In view of the Office Action Response filed on February 28, 2005, Applicant submits that the claims are in condition for allowance and the same is respectfully requested.

Respectfully submitted,

Date: 10/13/05
